

FARR 395 "NO LIMIT"

The main, AP jib, light chute, and code zero are great. Rest of inventory currently just ok. Working on that though. All B&G Hercules 2000 with performance package(VP's) 4 20/20 displays on mast and 2 ffd displays on cabin faces w remote switches by helm. Garmin GPS networked to B & G. Autopilot also. Short and long keel available.

Boat's name is No Limit and yes PHRF cert is valid at the west coast phrf site. Bouy rating of 51 with short keel 42 with long (7'10" draft). No current IRC cert yet, but would entertain for charterer.

We got the boat and totally faired the hull, keel, and rudder. Bottom is Baltoplate wetsanded to 600 grit. (true wetsand of 220 then 320 then 400 then 600) Not your normal boat facility spray job then wipe with 600 grit for 1 hr and call it wetsanded.

All 395 structure issues have been addressed along with relaminating forward v-berth area. Can supply pics if needed. Electronics are set up for a laptop network with deckman to the B & G system. However we don't currently have the laptop or deckman.

When this boat was ordered from Carroll Marine it had/ and still has every upgrade available at the time. Electric main halyard winch, pipe berths, Lewmar zip winches, inverter/charger, a/c,. Radar and carbon radar pole (removed for now) etc. Basically boat is cherry but in racing form with amenities in storage including cushions..... Because I'm a repair facility, I could also offer daily cleaning or repair(hopefully not needed) to the boat.

The price with the boat delivered for KWRW, with sails, long keel, myself as Non Tactical crew, and everything described below would be 14,000.00. If you don't need me that would be fine, but the charter company we are listing this with said that's how we should do it. I would guarantee satisfaction with the boat and if you need references of the quality of my work, I will provide them for you also.

This boat will be maxed when we install long keel, and will also have 2 new sails added to the inventory. Anyhow, let me know as we intend to list with a charter company, and other charter sites.
