

FARR 395 "NO LIMIT" For Charter

The main, AP jib, Light Jib, New 150 chute, and code zero are great. Rest of inventory currently good.

All B&G Hercules 2000 with performance package( VP's ) 4 20/20 displays on mast and 2 ffd displays on cabin faces w remote switches by helm. Garmin GPS networked to B & G. Autopilot also. Short and long keel available.

PHRF Suncoast Boat of the year 2009, DIYC boat of the year 2009, PHRF Windward-Leward boat of the year 2009

Boat's name is No Limit and yes PHRF cert is valid at the west coast phrf site. Buoy rating of 51 with short keel. No current IRC cert yet, but would entertain for charterer.

We got the boat and totally faired the hull, keel, and rudder. Bottom is Baltoplate wetsanded to 600 grit. Electronics are set up for a laptop network with deckman to the B & G system. However we don't currently have the laptop with deckman.

When this boat was ordered from Carroll Marine it had/ and still has every upgrade available at the time. Electric main halyard winch, pipe berths, Lewmar zip winches, inverter/charger, a/c,. Radar and carbon radar pole ( removed for now ) etc. Basically boat is cherry but in racing form with amenities in storage including cushions.....

Because I'm a repair facility, I could also offer daily cleaning or repair( hopefully not needed) to the boat.

The charter price with the boat delivered for KWRW, with sails, myself as Non Tactical crew, and everything described below would be 14,000.00. If you don't need me that would be fine,

Thank You,

Mike Gable 727-455-5576
